Hesham Ali

Full-Stack Web & Mobile Developer | CRM & E-Commerce Expert

Highly productive and tech-savvy Full-Stack Developer specializing in building high-performance web applications, custom CRMs, and complex mobile apps. Expert in integrating external APIs, automations, and e-commerce platforms (Salla, Zid, WordPress). Renowned for utilizing advanced AI-assisted workflows to build and deploy robust, enterprise-grade solutions at 3x market speed.

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Active (7 Months)

Moraqmen

- Designed and engineered robust front-end and back-end web solutions using React.js and Node.js.
- Developed the custom Moraqmen CRM System integrated with Chatwoot and Meta Leads API to automate customer lead collection.
- Built and launched the Mithaq Life web platform and mobile app (React Native), syncing complex matchmaking functionalities with a custom WordPress database.

Freelance Full-Stack Developer

Ongoing

Self-Employed / Independent Consultant

- Developed and launched custom-designed, high-converting e-commerce stores on major MENA platforms (Salla and Zid), using custom styling and integrations.
- Built and maintained complex React Native applications linked to custom WordPress REST API backends.
- Engineered advanced back-end matchmaking algorithms and user-role permissions systems.

FEATURED PORTFOLIO PROJECTS

Moraqmen CRM crm.moraqmen.com (Live)

An advanced WhatsApp-focused CRM system developed at Moraqmen. Implemented automated Meta Leads integration to dynamically ingest incoming prospects, coupled with a Chatwoot messaging ecosystem.

Mithaq Life mithaq.life (Live)

A highly customized matchmaking and matrimonial platform built for Moraqmen. Developed custom role hierarchies, automated matchmaking dashboard analytics, and built a corresponding React Native mobile app seamlessly synced with the WordPress REST API database.

Sho9 Premium Store sho9.com (Live)

A highly customized, premium-tier Salla e-commerce store optimized for rapid loading times, high conversion rates, and localized user experience.
